Profile

I am Nozomi Kawamoto. I graduated from the faculty of Engineering in Shinshu University, majored in Computer Science. My main research was BMI(Brain-Machine Interface) using EEG(Electroencephalogram), and I am better at software engineering than hardware engineering. About software engineering, my expertise ranges from HTML/CSS/Javascript to low-level programming. And I have solid knowledge on cloud architecture and ETL processing pipeline.

Education

Shinshu University
B.S. Engineering(Mar 2019)

Main area:

Computer Science

Research Title:

Method for classification
of SEP relative to finger
vibrotactile stimuli

Experience

SoftBank - April, 2019 - Present Full Stack Engineer.

CiNet - June, 2018 - March, 2019

Research Trainee. Main area was EEG-BMI.

SoftBank - August, 2017

Summer Internship. Brainstorming new application ideas and make mocks. And, functional verification of SDN Switch.

Skills

 $\cdot \, \mathsf{AWS}$

· Python, Javascript, C, etc.

· Elastic Stack.

· React, Next.js.

· Git, GitHub.

freee - September, 2017

Summer Internship. SRE Engineer.

Colt Technology - August, 2015

Summer Internship. Network Engineer. Management jobs for servers and network equipments in a data center.
